

Logan International Airport/US Air's Terminal B Bagroom 6 Hold Baggage Screening System

- Boston's Logan International Airport and US Air required a technology upgrade to existing bagroom operations to comply with the TSA's regulatory mandate for Computer-Aided Passenger Pre-Screening (CAPPS).
- Brock Solutions modified the existing Baggage Screening System in Bagroom 6 of Terminal B with a 100% Hold Baggage Screening system, complete with interfacing to Radio Frequency Identification (RFID) technology.
