

Compact Crossbar Transfer Press System and Panel Build Project Overview

- A German press OEM received a contract from one of the Big 3 automotive manufacturers to design, supply, and install four (4) identical Compact Crossbar Press Lines for use in North America.
- Brock Solutions built three (3) 15' wide by 4' high consoles and associated MCPs, and developed a Functional Specification, Press Line Supervisor (LSV) software, and I/O emulator to test the software before commissioning and on-site installation took place.
- Contact us at info@brocksolutions.com for the complete project profile.
